

A Middle English Statute-Book Part I

By Claire Fennell

Universitätsverlag Winter Nov 2014, 2014. Taschenbuch. Book Condition: Neu. 234x159x20 mm. Neuware - Statute-books have been described as one of the most popular forms of secular literature in medieval England, and are the commonest form of medieval legal literature still extant. The statute-books all differ as to the choice and ordering of their contents, which generally include not only a selection of the statutes, but also a variety of related legal material aimed at explaining and illustrating them. The unedited Rawlinson MS B 520 is just such a compilation. Dating from the early years of the fourteenth century, it is the only known ME version of a medieval statute-book containing the *statuta antiqua*, that is, legislation dating from Magna Carta to the end of Edward II's reign. Some 200 Latin and Anglo-Norman versions of these statute-books are still extant, but the most recent edition of almost all of the statutes goes back to 1810. This two-volume edition of Rawlinson MS B 520 will include statutes, memoranda and mnemonic notes (ff. 1r 54v) in Vol. I, tracts (ff. 54v 97r) in Vol. II. 199 pp. Englisch.

Reviews

This publication may be really worth a go through, and a lot better than other. It really is written in simple terms and never difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

This book will not be simple to get going on reading but extremely exciting to read through. Yes, it can be playful, still an interesting and amazing literature. I am very easily could possibly get a delight of reading a written book.
