Yet with the U.S. Surgeon General estimating that approximately 20 of young people display signs of psychological problems, the need for such services - particularly for interventions that not only address mental health issues but also reinforce protective factors - is considerable. Evidence-Based School Mental Health Services offers readers an innovative, best-practices approach to providing effective mental health services at school. In several concise, easy-to-read chapters, the author addresses such important topics as: * The rationale for building a three-tier mental health system in schools.* The importance of making emotion regulation training available to all students.* Designing strategies for adding affect education and emotion regulation training at each tier.* Providing empirical support for implementing CBT in school settings.* Preparing young children to benefit from school-based CBT. Also included is an Appendix of specific group activities and exercises that can be put to use in the school setting.
