

Concrete Construction for Rural Communities (Classic Reprint)

By Roy A Seaton

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Concrete Construction for Rural Communities The extension of the use of concrete to farms and rural communities has developed a need for a textbook treating the essential features of concrete construction in a thorough but simple manner. Most of the works now available either are written for engineers and are unsuited to the non-technical man, or are in the form of bulletins dealing chiefly with the uses to which concrete is put in rural communities, without giving a systematic treatment of fundamental principles governing its use. The author has endeavored, in writing this book, to make it suitable for use as a text in a brief course in concrete construction for agricultural or other students in colleges, when accompanied by laboratory exercises and field construction, and to make it valuable to others who have occasion to use concrete. Chapter II, on Cement Specifications and Tests, and Chapter VIII, on Strength of Reinforced Concrete, are necessarily somewhat technical, but it is thought best to include this matter for the use of students. Persons who find the...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Ally Reichel

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).

-- Prof. Kirk Cruickshank DDS
