Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1908 Excerpt: .carbonation, hydration, oxidation, solutions, and decrease in the volume of material. The belt of cementation is characterized by cementation, induration or process of hardening, hydration, deposition, and increase of the volume. 143. Caves.--The dissolving action of solutions is illustrated by the large underground passages that have been formed at Luray in the Shenandoah Valley, Virginia, and at the Mammoth Cave, Kentucky. The depositing action of solutions is also shown in the same caverns. The result of both actions is shown in Fig. 44, which has been drawn from a photograph of a portion of the Luray cavern. The passages were formed by the underground streams, which for some cause subsequently stopped flowing, thus leaving the passages empty. Water from the surface subsequently seeped into the caverns by way of the roof, and in its passage downwards collected lime, which it holds in solution. The water as...

### Reviews

*It in a single of my personal favorite ebook. Better then never, though i am quite late in start reading this one. I am effortlessly will get a satisfaction of reading a published ebook.*

-- **Ms. Lavada Krajcik**

*Comprehensive guideline for book lovers. It can be filled with knowledge and wisdom I realized this publication from my dad and i suggested this pdf to find out.*

-- **Ted Schumm**
